

Reciprocity,
relationship-
building, and
Traditional
Ecological
Knowledge
(TEK) in forest
ecosystems

**TRANSFORMING
APPROACHES** TO FORESTS AND
FORESTRY THROUGH

INDIGENOUS & LOCAL KNOWLEDGES

UBC Faculty of Forestry

Vancouver, Canada

24-28 June 2019

The emerging interdisciplinarity in forest research is creating innovative new pathways to engage with the Traditional Ecological Knowledge (TEK) holders of forest ecosystems, while respecting and protecting the rights, livelihoods and ways of being of Indigenous Peoples and Local Communities (IPLCs).

In this conference, we welcome papers covering a broad range of research from across disciplines to bring together new ways of knowing, learning, and sharing TEK from forest ecosystems.

For more information and to present at the conference,
submit this form by 2 January 2019.
